

FLOWER COUTURE

by MANTAS PETRUŠKEVIČIUS

Special events & locations decor
BY FLORAL ARTIST
Mantas Petruškevičius

2023 / 2024

ABOUT MANTAS

Mantas Petruškevičius is capable of creating harmonious environment even under minimalist conditions, even when he knows that his surroundings are temporary and ephemeral – nevertheless, all the objects around him will have subtle form, colour, facture and aroma.

He was sixteen when he presented his floral collection of clothes in Vilnius hotel "Stikliai". The collection was noticed and appreciated by the then First Lady Alma Adamkienė. Later Mantas was contributing creatively to charitable events organized by this woman. It was a challenge and a solid statement made by him in the country that has lost sense of beauty during the Soviet times that esthetical needs should be manifested in our celebrations and daily life.

2023

@L'officiel

Magnificent! Stunning! Unique! These are the comments showered after artist Mantas Petruškevičius shares yet another wedding or event décor photo displaying his craftsmanship.

The style of celebration and surrounding architecture serve as essential criteria that determine colour and form of the created bouquets. Mantas has a real gift to decorate interior and exterior and acts as a painter who is able to ensure to ensure vitality & dynamics of the already finished picture by a single brushstroke.

“It is natural for me to need aesthetic environment and to feel passion for its creation. I call my work to be my genuine vocation.”
